**Team ID** : PNT2022TMID15283

Project Name : VirtualEye - Life Guard for Swimming Pools to Detect Active Drowning
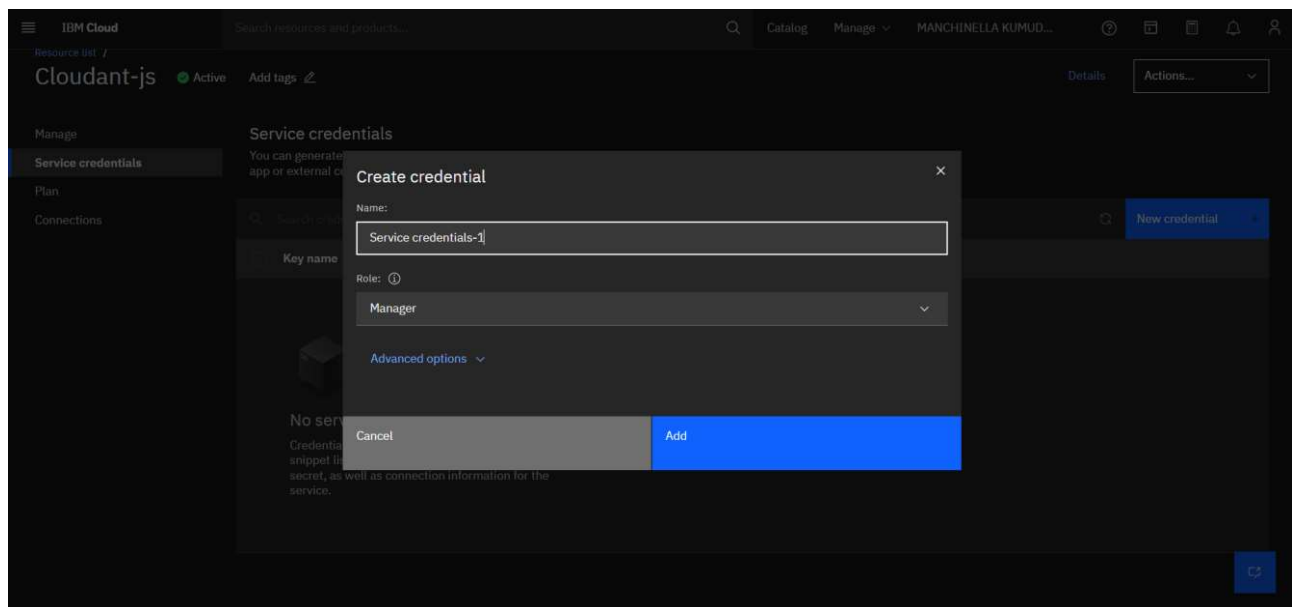

Creating Service Credentials

1. To create the connection information that your application needs to connect to the instance, click New credential.

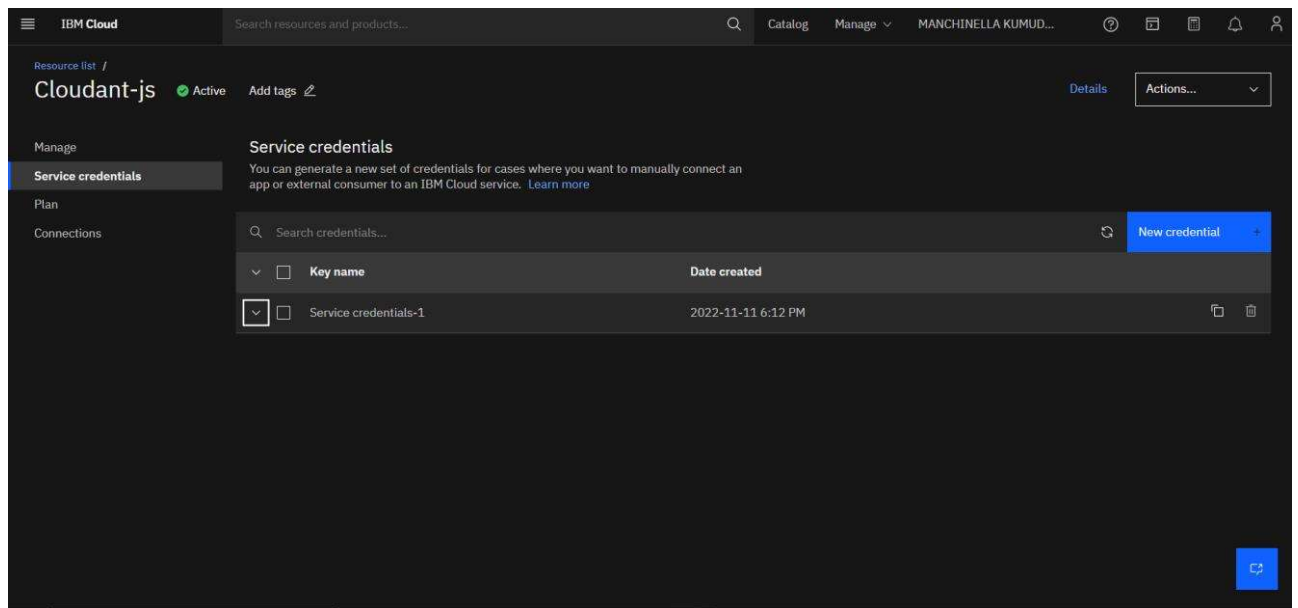

2. Enter a name for the new credential in the Add new credential window.

3. Accept the Manager role.

4. (Optional) Create a service ID or have one automatically generated for you.

5.   (Optional) Add inline configuration parameters. This parameter isn't used by IBM Cloudant service credentials, so ignore it.

6.   Click Add.

7.   To see the credentials that are required to access the service, click the chevron.

8.   The details for the service credentials open like the following example:
